Re: Registry Request #2011004, One and Two-Character Name Allocation Proposal for .org

Dear David,

ICANN has conducted a preliminary review of PIR's request to implement One and Two-Character Name Allocation in .org, in accordance with the Registry Services Evaluation Policy and process set forth at <http://www.icann.org/registries/rsep/rsep.html>

Based on the information provided, ICANN's preliminary review did not identify any significant competition, security or stability issues. As noted in the proposal, implementation requires a modification to the .org Registry Agreement (signed on 8 Dec 2006, amended 16 July 2008). Please send us your proposed Registry Agreement amendment in editable format.

Please let us know if you have any questions.
