

RSEP Fast Track-Registry Lock

May 30, 2023

Registry Operator

Big Room Inc.

Request Details

Case Number: 01223355

Service Description

This service request should be used to submit a Registry Services Evaluation Policy (RSEP) request to implement the Registry Lock service. The purpose of the Registry Lock Service is to help protect against accidental or inadvertent modifications to, deletions, or transfers of domain name registration data.

The statements below reflect the standard implementation of the proposed service with no apparent significant security or stability issues as well as the standard amendment language for Registry Lock. Please note this request will be published on the ICANN org [RSEP webpage](#) upon completion of the Completeness Check, which will be within 5 days from submission.

If any of the statements below do not apply to your registry's implementation of the proposed service, this RSEP Fast Track request may not be used. Instead, you must submit a standard "RSEP (Registry Services Evaluation Policy)" request. Please [click here](#) for more information about the process.

Complete the information requested below. All answers marked with a red asterisk are required. Click the Save button to save your work and click the Submit button to submit to ICANN.

Registry Operator Confirmation

1. My registry requests to implement the Registry Lock service for the TLDs included in this request.

Yes

2. My registry confirms the amendment language below represents the proposed service in this RSEP request and my registry agrees to execute the Registry Agreement amendment without modification.

Note: amendment execution will occur once the request has successfully passed ICANN Review for security, stability, and competition.

Registry Lock

Registry Operator may offer the Registry Lock service, which is a Registry Service that allows an authorized representative from the sponsoring Registrar to request the activation or deactivation of any of the following EPP statuses: serverUpdateProhibited, serverDeleteProhibited, and/or serverTransferProhibited.

Yes

Competition Questions

1. Do you believe the proposed service would have any positive or negative effects on competition? If so, please explain.

We do not foresee any negative effects on competition. Offering the Registry Lock service will allow accredited registrars to integrate this service into their existing domain protection products or develop new offerings. Ultimately, this will contribute to increased differentiation between registrars and enhance consumer choice.

2. How would you define the markets in which the proposed service would compete?

The market for the Registry Lock service is accredited registrars for the gTLD, who would in turn offer this service to their customers.

3. What companies/entities provide services or products that are similar in substance or effect to the proposed service?

Registry Lock is a service commonly offered by other gTLD registries.

4. In view of your status as a Registry Operator, would the introduction of the proposed service potentially impair the ability of other companies/entities that provide similar products or services to compete?

No. The introduction of the Registry Lock service would complement existing domain protection services.

5. Do you propose to work with a vendor or contractor to provide the proposed service? If so, what is the name of the vendor/contractor, and describe the nature of the services the vendor/contractor would provide.

No.

6. Have you communicated with any of the entities whose products or services might be affected by the introduction of the proposed service? If so, please describe the communications.

We have communicated with currently accredited registrars for this gTLD who are interested in this service. Upon acceptance, all accredited registrars for this gTLD will be informed that the Registry Lock service is available.

7. Do you have any documents that address the possible effects on competition of this proposed service? If so, please submit them with your application. ICANN will keep the documents confidential.
